

WRO-3000 & WRO-3500 Reverse Osmosis

- Point-of-Use filter systems
- Provide cleaner, fresher-tasting water for drinking and cooking
- Finest level of water filtration available; filter particles as small as 1/1,000 of a micron
- Reduce salts, dissolved minerals, bad taste & odour
- Designed for chlorinated and non-chlorinated water

- Produce up to 28 litres* of top-quality water per day
- Easy, undersink installation
- Include filter cartridges, RO membrane, lead-free long-reach faucet and installation hardware

*Performance varies depending upon operating conditions

Tested and Certified by NSF International.

WRO-3500

Model Number	Part Number	Reduces	System Dimensions	Storage Tank Dimensions	Storage Tank Capacity
WRO-3000	161065	Dissolved Minerals, Lead, Selenium, Copper, Cysts, Bad Taste & Odour, Chlorine Taste & Odour	350 x 120 x 325mm	286 x 286 x 426mm	7 – 12 Litres
WRO-3500	161066	Dissolved Minerals, Lead, Selenium, Copper, Cysts, Bad Taste & Odour, Chlorine Taste & Odour, Nitrates, Nitrites, Pentavalent Arsenic, Cadmium, Hexavalent Chromium, Trivalent Chromium, Barium, Radium 226/228	350 x 120 x 325mm	286 x 286 x 426mm	7 – 12 Litres
